battered, and his body one mass of blood.

One of the men ran up to the Franklin Square station, and a call was sent out for an ambulance. The body was taken to the Oak street station.

Just how the unfortunate man was struck could not be ascertained. The belief among the three trackmen was that either the driving rod or the steps of the engine struck Fraser, caught his clothing and carried him along, bumping his head on the track. It was also believed that the wheels of the second car passed over his body, but an examination by the Coroner may alone determine this.

Frazer had been some time in the Company's employ, and was not married.

All information regarding the ascel-

ried.

All information regarding the saccident was refused at the Franklin Square station, and all inquiries were referred to Col. Hain.

Up to noon no arrests had been made.

Justice Martin, the thrilling story of how he had been waylaid, knocked down and robbed, not only of the money in his pocket—60 cents—but also of his shoes and socks, in City Hall Park a few hours before.

The two highway men whom he charged with the offense were Morris Lewis, of 25 Market street, known to his companions as "Red," and Abe Cohen, of 82 Delancey street. Both have reached the mature age of twelve years and are also newsboys.

The prisoners started out on their career of crime late last night, when a "Red" asked Abe to go some place and have a "smile," and the latter conting the proceeded to a dive on Rossevelt street, where they had a schooner each if for three cents. They liked it so well that Abe said, "Have one with me," and another of the long glasses was emptied. That emptied their exchequer, sommitted suicide stery who described to extract them herself.

proach of Park Policeman Dwyer, to whom young Lyons had made a complaint.

Neither of the boys showed any inclination to resist arrest, but, on the contrary, both said they would be willing to go anywhere. All they wanted was a "square deal."

When the Tombs Court was reached Agent Gallas, of the Children's Society, took charge of the boys, and when arraigned before the barthey were all crying. Then each boy started in to tell the story of the night and early morning's happenings, and Abe laughed as he described how "Red" had "swiped two cigars from the divekeeper.

Lyons, who was well acquainted with the other two, also informed the Court that it was their usual practice to "grub" from the City Hall Park loungers. He did not explain what "grubbing" meant, but the Court seemed to understand it.

At first the boys kept up a brave front and seemed to defy the Court, but after close questioning they began making charges against each other, and became so fierce that it required the interference of the officers to prevent a renewal of the Theatre Alley fight.

Finally the prisoners were held in \$500 for trial at General Sessions, and Lyons was held as a vagrant, pending an investigation.

The parents of the boys will be sought out and explanations demanded. The divekeeper will also be taken care of for selling the boys the stale beer.

Both boys admitted that they had only been on the "bum" for three days, and that they would be "licked" when they got home.
